Comment [122]: Sometimes having two Word headings, both of which throw a page break, creates blank pages but that's always been a challenge for writers of Word documents.

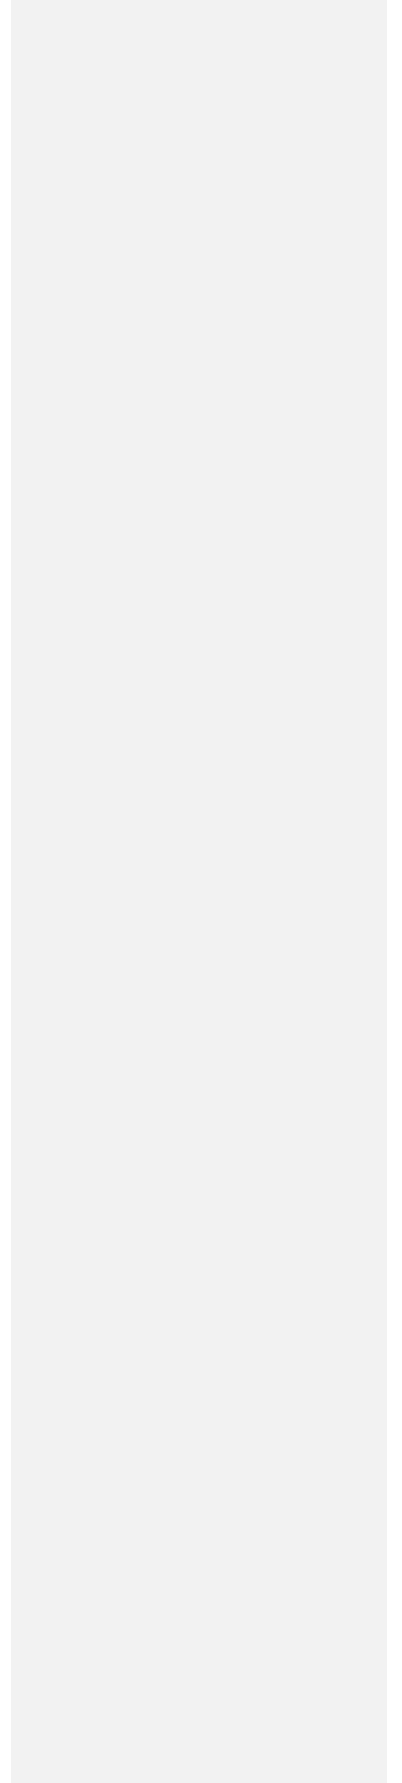

this EA Package had some notes, even though they would print

our models, we have a standard at ALL packages ALWAYS have some notes, even if i5 just says these are the initial

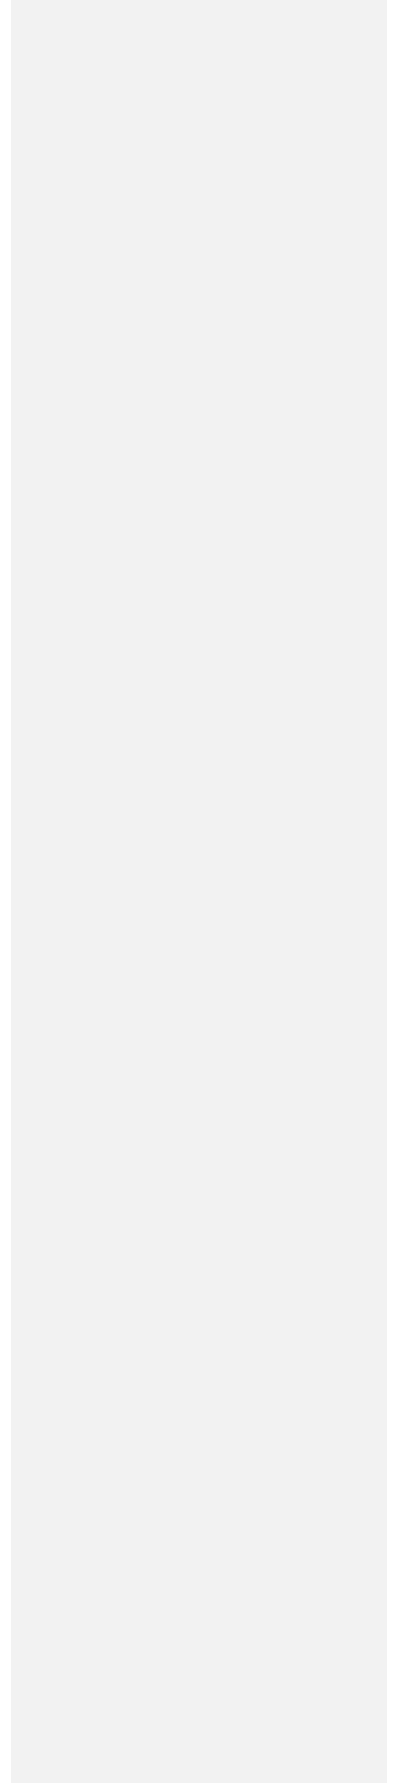

document more readable, but more important, i5 makes the ODEL more readable, which is important. Both for you, later on in the projectBT/en you have

from, or for other model users.
